Accessory packs

Toyota RAV4 accessory packs offer individuality, convenience and value. Whether your preference is SUV personality, added style or pure functionality, each pack provides flexibility to tailor your car to the life you lead.

SUV pack

Full of character, the RAV4 has the look, drive and versatility for inspiring a true sense of adventure. The SUV accessory pack adds side steps and guards to further enhance your car's rugged appeal.

Front guard with underguard

Urban individuality in a strong off-road design highlighted by a chrome garnish and silver underguard.

Side steps

Contemporary town and country styling combined with a non-slip step surface for safe and easy access to your car.

Rear underguard

Gives the rear of your car a purposeful look of off-road functionality to complement the front guard with underguard.

Pack accessories are available individually. Please contact your local Toyota retailer for details.

Fog lamp contour
Chrome finished styling to fit around and emphasise your fog lamps.

Rear trunk garnish
Makes a statement of personality by highlighting your car's strong rear-end design.

Side sills
A tasteful chrome garnish to complement and enhance the RAV4's sculpted sills.

Chrome pack

Leading the way in contemporary design, the RAV4 paints a definitive picture of urban country styling. Chrome pack accessories apply carefully chosen design details to make even more of your car's compelling good looks.

Steel rear bumper protection plate
A prestigious polished steel appearance also providing tough paintwork protection when loading or unloading the trunk.

Bumper corner protectors
For the front and rear bumper corners to protect against accidental scrapes. In black or body colour painted to match your car.

Functional pack

Functional pack accessories are custom designed to give your RAV4 extra protection where it's needed most. Bumper corner protectors, side mouldings and a rear bumper plate all help to guard against accidental scuffs and scrapes.

Side mouldings
The good looking way to guard door panels against minor damage. In black or body colour painted to match your car.

Pack accessories are available individually. Please contact your local Toyota retailer for details.

Exterior style

Toyota exterior style accessories give you design choices to create your own look. Individually or all together, whether touches of chrome or distinctive alloy wheels, each accessory co-ordinates to reinforce the RAV4's dynamic personality.

Front guard with underguard
Urban individuality in a strong off-road design highlighted by a chrome garnish and integrated silver underguard.

Side sills

A tasteful chrome garnish to complement and enhance the RAV4's sculpted sills.

Front underguard

The look of the city combined with off-road appeal. Ideally complements the rear underguard.

Side steps

Contemporary town and country styling with a non-slip step surface for safe and easy access to your car.

Alloy wheels

Your choice of Toyota alloy wheels adds to the RAV4's look of compelling originality. Each design makes a statement about personal style while also being precision engineered for optimum drive balance and stability.

Pitlane II, anthracite colour, 18"

Pitlane II, anthracite with a machined alloy face, 18"

Wheel locks

Featuring a rounded profile and unique coded key to maximise alloy wheel security. The locks are made of chrome finished hardened steel to match your existing wheel nuts.

Winter rim wheel, 17"

Especially for use with winter tyres. When the weather turns you can simply swap the winter wheels for your normal alloys and so avoid expensive tyre changes.

Poseidon, anthracite with a machined alloy face, 17"

Rear underguard

Gives the rear of your car a purposeful look of off-road functionality. Its design ideally complements the front guard and front guard with underguard.

Fog lamp contour

Chrome finished styling to fit around and emphasise your fog lamps.

Rear trunk garnish

Makes a statement of personality by highlighting your car's strong rear-end design.

Rear lamp chrome bezel

Adds a chrome highlight to the RAV4's distinctive rear light cluster.

Interior style

Prestigious leather upholstery, heated front seats and a leather centre console. Toyota accessories reflect contemporary interior styling at its very best.

For luxury, there's nothing to compare with the look and feel of genuine Toyota leather seats. They are made with top quality leather and are available in three colour combinations giving you real choice to express yourself. There are big benefits for practicality as well because Toyota leather is hard wearing and dirty marks simply wipe away.

Reassuringly, Toyota leather interiors are made to the highest safety standards and are fully compliant with airbag operation.

Black leather with matching black piping.

Khaki and black leather with matching khaki piping.

Khaki with black leather inserts and matching black piping.

Front seat heaters*

The comforting warmth of gently heated front seats for those icy nights and frosty mornings.

*Available from March 2013.

Leather centre console

Adds that final detail to create a look of ultimate luxury. Finished in high quality black leather that matches all the colour combinations of Toyota leather seats.

Protection

Toyota accessories can make a big difference to keeping your RAV4 in top condition. They do this by providing extra protection at those points most at risk. Importantly, for both the inside and out, each accessory has been designed to complement your car's appearance.

Aluminium scuff plates

Good looking practicality providing dependable paintwork protection against the ins and outs of a busy life. For the front and rear.

Illuminated scuff plates*

Finished in brushed aluminium with an illuminated logo to provide truly stylish protection for door sill paintwork. For the front and rear.

*Available from the end of April 2013.

Trunk liner

Durable waterproof plastic with a raised lip and non-slip surface pattern. Ideal for a busy outdoor lifestyle.

Rubber floor mats

Ultra-strong protection for your car's carpets against mud, dirt and sand. Special fixing devices hold the driver's mat firmly in place.

Standard textile floor mats

Relaxing textile with a strong rubber backing providing tough protection for your car's carpets. Shaped to fit and with secure floor fixings for the driver's mat.

Luxury textile floor mats

Soft textile carpeting on a hard-wearing padded base for maximum comfort and protection for your car's carpets. Tailored to fit and with floor fixing devices for the driver's mat.

Carrying and towing

Toyota carrying and towing accessories are custom designed to make even more of the RAV4’s sense of adventure. Choices including roof-top storage, bicycle holders and towing hitches add extra capability so you can quickly and safely load up and go whenever your passion takes you.

Roof rails

Strong yet lightweight permanently fixed rails that combine with Toyota cross bars to create a base for roof-top storage. Stylishly designed with a silver finish to integrate seamlessly into your car’s profile.

Cross bars

For use in combination with Toyota roof rails. The cross bars lock onto the rails and provide a base for the range of specialised Toyota carrying attachments such as ski and bicycle holders and luggage boxes.

Ski boxes

Large ski box

For those big snow holidays

Toyota ski boxes have been custom designed to exactly the right length, shape and capacity for securely carrying all your winter sports accessories.

Standard ski box

Internal volume: 360 litres. Maximum content weight: 75 kg.**
Holds 6 pairs of skis.

Large ski box

Internal volume: 450 litres. Maximum content weight: 75 kg.**
Holds 8 pairs of skis.

Features

- Weight: 17 kg standard, 21 kg large.
- High security three point locking system.
- The central locking system prevents key removal until the box is locked.
- Fits Toyota cross bars.
- Internal straps for securing the box contents.
- Made of colour-fast UV resistant ABS plastic.

Ski & snowboard holders

Large ski & snowboard holder

Simply load and go

The holders install easily and lock securely onto Toyota cross bars so you can quickly load skis and snowboards whenever the inspiration takes you.

Medium size holder

Large size holder

Features

- Weight: 3.20 kg medium, 4.20 kg large.
- Skis secured between soft rubber for grip and to prevent damage.
- Locking system for maximum security.
- Fits Toyota cross bars.
- Push release for opening with gloved hands.
- Large holder slides to the car side for easy loading and unloading.

Luggage box

Large luggage box

Just right for families

For jackets and dresses, shorts, shoes and all sorts of holiday accessories. A Toyota luggage box is perfect for those weekends away and big family holidays.

Large luggage box

Internal volume: 360 litres. Maximum content weight: 75 kg.**
Holds 4 medium/large bags.

Features

- Weight: 18 kg.
- High security three point locking system.
- The central locking system prevents key removal until the box is locked.
- Fits Toyota cross bars.
- Internal straps for securing the box contents.
- Made of colour-fast UV resistant ABS plastic.

*Internal measurements shown in brackets. **When installed on your car, the maximum allowable content weight is 75 kg minus the weight of the box and minus the weight of your roof rails and cross bars.

Bicycle holders

Rear mounted multi-capacity
For secure transportation and easy loading and unloading. The clamp mounted holder is a universal solution that attaches to all genuine Toyota towing hitches.

Key product highlights:	Clamp mounted rear bike holder
Load capacity (bikes)	2
Total load capacity (kg)	36
Dimensions LxW (cm)	105 x 58
Weight of unit (kg)	14
Fits frame dimensions (mm)	22 - 70
Vehicle's holding system	Towing hitch: fixed, detachable horizontal & vertical
Powerplug/Rear lights	7 pin or 13pin
Safety	Locks bike to carrier
	Locks carrier to car
	One key system compatible
Fulfils city crash norm	Yes
Miscellaneous	Maximum weight per bike: 20 kg. Fits bikes with disc brakes. Tiltable for easy access to trunk.

Quick and easy roof mounting
The lockable lightweight aluminium design attaches to Toyota cross bars and has secure wheel and frame grips. Conveniently, the frame grip can be adjusted at roof height.

UV resistant plastic. Fits wheel width up to 5.6 cm

Towing hitches - detachable and fixed

Toyota towing hitches are available with a fixed or detachable hook. Both provide a strong towing capability and will support the Toyota rear mounted bicycle holder.

- Features**
- 1500-2000 kg towing capacity depending on engine type (the towing hitch is designed for your car's maximum towing capacity).
 - Supplied with a protective tow-ball cap bearing the Toyota logo.
 - All Toyota towing hitches can be used to support the 2 bicycle version of the Toyota rear bicycle holder.
 - With the detachable towing hitch, a smart plastic cover is supplied to place over the base when the hook is removed.
 - On the detachable towing hitch, the hook attaches or removes by means of a turning knob that also incorporates a security lock.

Towing hitch wiring harness

Safety for you and your car is at the heart of the Toyota towing hitch wiring harness. Individually designed for each Toyota model, the harness seamlessly integrates your car's lights and signals with those on a towed trailer or rear bicycle holder.

- Features**
- The harness has independent circuitry and a fused module to eliminate the risk of overloading your car's existing electrical system.
 - The fused module prevents a fault in the trailer's circuitry affecting your car's systems. For instance, your car's indicators will continue working even if those on the trailer fail.
 - Toyota specialists designed the cable route to safely avoid contact with moving car parts, heat, irregular surfaces and metal edges.
 - There are no loose or hanging cables that could catch on road obstacles or interfere when loading or unloading the trunk.
 - Strategic reinforced cable protection guards against accidental damage and the consequent risks of lighting failure or fire caused by electrical shorting.
 - Available with a 7 or 13 pin socket.

Socket adapters

If you have an existing trailer or rear bicycle holder, or perhaps you want to hire a trailer when you travel in another country, you may find that the plug socket is different to that on your new car. Such a problem is easily resolved! A Toyota socket adapter enables you to safely and securely connect your car's towing hitch wiring harness to that of a trailer or bicycle holder even if the plugs don't match.

Toyota adapters are designed to provide a durable connection between different types of plug sockets. They are available in three versions:

- 7 pin (car) to 13 pin (trailer).
- 13 pin (car) to 7 pin (trailer).
- 13 pin (car) to 12N-12S double socket (trailer).

Interior practicalities

RAV4 versatility inspires a different outlook on life. Toyota accessories reflect those differences by offering extra touches of practicality. Each accessory provides added functionality for an individual way of doing things.

Cool box

Ideal for picnics and days out. Plugs into your car's 12V socket to keep refreshments either hot or chilled.

Horizontal cargo net

Clips onto your car's pre-fitted hooks to prevent bags and briefcases sliding around in the trunk.

Cool box transformer

Transforms 220V into 12V so you can use your cool box for refreshments at home or in your holiday chalet.

Ash tray / small bin

You can use it as an ashtray or for extra storage. The spring-shut lid makes it ideal for both.

Innovative technologies

The essence of Toyota technology accessories is that they apply innovation to create the vital link between you, your car and your lifestyle. There are choices ranging from navigation and audio through to Toyota Hotspot, parking assistance and security.

What is so clever about Toyota technology accessories is that they have been created from the beginning with the user in mind. Every button and display is designed for easy operation. Each function satisfies a need.

The image shows the Toyota Touch & Go Plus interface. The central screen displays four main menu items: Weather, Parking, Fuel price, and Twitter. Each item has a corresponding icon and a small trash can icon for deletion. To the right of the screen are physical buttons for MAP NAV, SETUP, and CAR. To the left are buttons for MEDIA and a volume control slider. The bottom of the screen shows a status bar with Bluetooth, signal strength, and battery level indicators, along with the word 'Extras' and a warning icon.

Toyota Touch & Go

Toyota Touch & Go is the ideal upgrade if your car is already fitted with Toyota Touch audio and you want to add navigation. It integrates seamlessly with the existing audio functionality to also provide pan-European map coverage and a host of travel extras.

The full colour maps are updated twice a year. Additional special features include touch-screen operation, advanced Bluetooth® compatibility*, travel apps, a places of interest database and a choice of languages.

A close-up of the touch screen showing the 'Enter destination' field and 'Traffic messages' option. A finger is seen touching the screen. The interface also shows 'Route options' and 'Start calculation' buttons.

Easy to use

A touch sensitive screen ensures easy operation. Touch-screen controls include fast map and menu scrolling and map zooming.

The navigation map shows a route from Machelen to Zaventem. The map includes lane guidance, speed limit indicators, and a safety camera notification. The time is 20:14 and the distance to the next point is 132 km. The current speed is 2.3 km/h.

Driver-friendly

On-route instructions include lane guidance, speed limit and safety camera notification.

The image shows a 3D map view of the Eiffel Tower area. The map includes labels for 'Avenue Gustave Eiffel', 'Avenue De La Bourdonnais', 'Passerelle Debilly', 'Quai Branly', and 'Gustave Eiffel'. There are buttons for 'Save' and 'Go'. The interface also shows physical buttons for MAP NAV, SETUP, and CAR on the right, and MEDIA and volume control on the left.

Toyota Touch & Go Plus

The Toyota Touch & Go Plus upgrade has everything from Toyota Touch & Go along with even more sophisticated levels of operation, communication and navigation. Maps are updated twice a year and are free for the first three years.

The many extra features include advanced voice recognition, 3D city models and a traffic patterns database for intelligent routing. Integrated Bluetooth® compatibility* means you can view and operate smartphone functions through the convenience of the Toyota Touch screen.

The voice recognition interface shows a list of commands: Destination <House No., Street, Town>, Play <Artist> <Album or Song>, Call <Name>, Station <Name>, and More commands (32). There is a 'Call sender' button and a 'Reply free text' button.

Advanced voice recognition

With Toyota Touch & Go Plus you can use voice recognition commands to input your route destination, search and play music, and search and call your contacts.

The email and calendar interface shows a list of messages: Abigail Palmer (Hey! How are y...), Mom (When will you ...), Edgar Horst (Your dog is ha...), Mom (This is an invit...), and +491799916231 (Dear Customer!...). There is a 'Create new' button and a 'Send' button.

Email and calendar

Emails and calendar information received on a compatible Bluetooth® phone, and your response, can be displayed for high visibility on the Toyota Touch & Go Plus' 6.1" screen.

The text to speech interface shows a message from Michel Laurent: 'Hey! How are you doing today? Would you like to meet me and my girlfriend for a coffee in town. We should talk about what happened in...'. There is a 'Call sender' button and a 'Reply free text' button.

Text to speech

If you receive a text on your Bluetooth® phone while travelling, Toyota Touch & Go Plus can convert it to speech so you can safely listen to the message without taking your eyes off the road.

The advanced database routing interface shows map options: Address, POI, Advanced, and Stopover. There is a 'Select point on map' button, an 'Enter geo-coordinates' button, a 'Load contacts from USB' button, a 'Load addresses from server' button, and an 'Online search by Google' button.

Advanced database routing

The Toyota Touch & Go Plus traffic patterns database enables optimised route planning according to individual road segments and by time, day and month for popular destinations.

*Contact your Toyota retailer for details of phone compatibility.

TNS350 multi-media navigation

The all in one Toyota TNS350 is a fully integrated navigation and multi-media hub. Touch-screen controls, a 5.8" screen and clear graphics make it incredibly easy to use. There's pan-European route guidance and media capabilities including an AM/FM radio, Bluetooth® and connectivity for your personal technologies.

Fingertip controls

Simply touch your finger to the TNS350 screen and slide it over the surface to scroll maps or search menus. With a menu, a gentle touch on your choice will access the information or reveal the next search level.

Play your iPod®

You can connect your iPod® via its USB cable and then operate it with the TNS350's touch-screen controls. Even the album art is displayed. When navigation is active, iPod® information appears in a split screen alongside the map.

View video and photographs

TNS350's 5.8" screen is great for imagery. You can upload photographs from an SD card or view iPod® video via an optional cable. Picture viewer also enables you to personalise the opening screen.

Hands-free Bluetooth®

TNS350 supports Bluetooth® communications and audio playback. Your phone's controls can be touch-screen operated, there's an integral pick-up microphone, and incoming calls feed through the car's speakers.

Toyota Hotspot*

As the name suggests, Toyota Hotspot gives you internet access and effectively turns your car into a mobile hotspot. Simply load the Toyota Hotspot box with a SIM card of your choice and, as long as you're in a 3G area, you'll have instant access to the internet and all the web has to offer.

The Toyota Hotspot connects up to five WiFi capable devices including laptops, tablets, smart phones, iPads, iPhones and game systems and also enables in-car interaction between them. Importantly, the Toyota Hotspot is wired into your car electrical system to ensure constant power supply.

- Designed specifically for in-car use and the special demands of temperature variation and vibration.
- Automotive design high speed dual antenna that enhances mobile reception and minimises 3G connection problems.
- Open to any GSM operator and so allows you to use a SIM card of your choice. It will accept a dedicated data transfer card and, when travelling abroad, you can fit a local card to avoid roaming charges or enable roaming on your card.
- Over-the-air software updating happens almost automatically.
- User friendly web interface allows personalisation of Toyota Hotspot functions such as the connection parameters.
- Easy to use with a simple on/off switch and coloured diodes to inform of status and activity.
- Securely mounted within your car to avoid trailing wires.
- Free from the technical problems associated with using a smart phone as a hotspot and also the restrictions imposed by internet providers. For example, the Toyota Hotspot does not limit you to just one user surfing the net.
- Covered by a Toyota warranty.

* Available from the end of February 2013

Great audio

TAS200 is the smart choice audio unit if your car isn't fitted with Toyota Touch audio and you don't require navigation. In addition to a superb radio, it also has a CD player and connectivity for personal technologies including an iPod®.

Ease of use is assured by a multi-jog selector and an OLED display providing strong contrast, high brightness and quick response.

Features include:

- AM/FM radio.
- MP3/WMA compatible CD player.
- AUX, USB and iPod® sockets.
- DAB readiness.
- Three DSP modes for sound equalisation.

Parking aid system*

The RAV4 is wonderfully easy to park. Even so, when space is tight, you'll find the guidance given by the Toyota parking aid system a big help in avoiding accidental scrapes.

Depending on your car's specification, you can add sensors to the front, rear, or front and rear bumpers. These link to in-car alarms that give a progressively louder warning the closer you get to an obstacle. Conveniently, the front and rear alarms have different sounds and can be switched off when not required.

* Available from May 2013.

Cancellation switches

You can switch off the parking alarms when they are not needed. For instance, you can turn off the rear alarm when towing a trailer and turn off both the rear and front alarms when driving bumper-to-bumper in slow traffic.

Vehicle security

It's comforting to have a car as safe as the RAV4. Toyota's vehicle security system increases that peace of mind by providing an extra layer of protection when your car is parked.

The system has a powerful alarm to complement your car's pre-fitted immobiliser. An optional incline sensor is also available to warn you of attempted wheel theft and towing-away.

Child safety

Caring for young passengers needs careful thought. Be assured, with Toyota child restraint seats you have individual options for each age group.

Nothing is left to chance with a Toyota child restraint seat. The fixings are secure, the fabrics are robust and the design offers both safety and comfort. Whether travelling near or far, you can be sure your most precious cargo will be well protected.

Name	Baby-Safe Plus
Suitable for:	From birth up to 13kg (up to 12/15 months).
Installation	Baby-safe belted base or seat-belt
Weight (kg)	3.9
