Throughout your Land Cruiser you'll find technology being used to magnificent effect. It's part of the secret that gives your car all-terrain versatility and makes the driving experience so pleasurable.

Toyota high technology accessories add even more to the sensation. There are innovations to guide you, to enhance communications and to entertain you. With each item the design is purposeful and rewarding. Every button and display is user friendly. Every function has been conceived to satisfy a need.

User-friendly

The user-friendly sophistication of Toyota technology accessories ideally complements the dynamics of living with the Land Cruiser. Each accessory operates to extend your car's functionality and enhance its integration with the way you like things to be.

The key is that Toyota technology is designed for quality of life. It makes more of the Land Cruiser experience whether you're looking for pan-European navigation, multi-dimensional audio or simply to find a better way of staying in touch.

TNS510 navigation system

More than route guidance, the TNS510 is a fully integrated navigation, media and Bluetooth® communications centre. Touch screen controls on a 5.8" screen make it incredibly easy to use.

Included among the multi-media features are an integral radio, a WMA/MP3/CDX compatible CD player and comprehensive connectivity including an AUX socket and USB slot.

For enhanced communications, the TNS510 has Bluetooth® streaming. This enables you to operate your Bluetooth® phone* through the system and hold hands-free conversations. Also, music stored on your phone can be played through the car's speakers.

*Contact your Toyota Retailer for details of phone compatibility.

**Dynamic Route Guidance depends on the availability of Traffic Message Channel radio broadcasts.

Bluetooth® complementary kit*

Adds extra convenience if you are a Bluetooth® phone user. The kit includes an external antenna and a cable-less cradle to secure your phone and charge the battery. It complements all Toyota pre-fitted and accessory Bluetooth® enabling technologies.
